

RELATIVITY FEST

September 26 – 28, 2023

Chicago | Online

JUSTIFY YOUR TRIP TO RELATIVITY FEST

What is Relativity Fest?

Every year, thousands from the e-discovery community attend Relativity Fest to discover faster, better ways to work. It's the premier conference of its kind. The conference challenges attendees to rethink how they conduct e-discovery with engaging panel discussions, hands-on exercises, breakout sessions, and insights from leaders in the industry – from federal judges and analysts to Relativity super users and developers.

Relativity Fest 2023 will take place September 26 – 28 at the Hyatt Regency in Chicago. We can't wait to have our entire community together in one place.

Take a look for an idea of what to expect in 2023:

Actionable Education

Relativity Fest is more than just great ideas. You'll leave with tactical ways to work smarter and grow your services or skills.

- 50+ educational sessions
- Hands-on exercises and workshops
- 8 RCE credits (depending on exam type)
- 7 CLE credits

New Connections

Whether you're attending in person or virtually, you'll have plenty of opportunities to meet and connect with others in the industry.

- 2,000+ attendees
- Built-in networking opportunities

A Fresh Perspective

Relativity Fest brings together professionals from every discipline, helping you see tough problems in a new way.

- Lit Support
- Law Firms
- Corporations
- Government Agencies
- Developers
- Industry Analysts
- Federal Judges
- Relativity Team

Justify Your Trip to Relativity Fest 2023

Here's a template you can use to persuade your manager that Relativity Fest 2023 will be well worth your time. Feel free to customize to your liking!

Dear [Manager Name],

I would like your approval to attend Relativity Fest in Chicago on September 26 – 28, 2023, at the Hyatt Regency Chicago.

Relativity Fest brings together the global e-discovery community, and I would love the opportunity to experience it in person.

Attending would be a great opportunity for me to connect, learn, and grow in my career, and I would bring all that knowledge back to the team here. Here are a few reasons I think it would be beneficial for me to make the trip:

1. **Actionable Education.** Relativity Fest offers more than 50 educational sessions over the three days, and I'll also have the chance to earn up to 8 RCE credits toward my Relativity certification.
2. **Built-In Networking.** In 2022, more than 2,000 experts and industry leaders from around the world attended Relativity Fest. Attending in person offers invaluable opportunities for me to meet and connect with others in the industry.
3. **A Fresh Perspective.** By bringing together pros from every discipline, Relativity Fest will help me see tough problems in a new way.
4. **A Voice at the Table.** I'll get the opportunity to provide feedback to Relativity's team and directly impact Relativity's development.

I know the information I learn and connections I make will be well worth the expenditure. I've attached a one-sheeter with more information of what I can expect to see and learn at Relativity Fest. Please let me know if you have any questions.

Thank you,
[Your Name]
